

HAND EXTRUDER

booster EX2

Built for tough jobs in plastics.

The booster EX2 plays to its strengths in plastics plants, tanks and underground engineering. It comes into its own for welding complete containers, facilities, pipe constructions or landfill sites. With the booster, you can achieve high-quality work on all common polyolefins.

Motor protection with optical display

Double-sided wire feed

Rotating handle

360° rotating welding shoes

Additional handle that fits onto the side

Strong for big challenges.

TECHNICAL DATA

Voltage	230 V~
Max. power	3000 W
Welding wire	Ø 3 / Ø 4 mm
Material	HD-PE, LD-PE, LLD-PE, PP
Max. material output	2.5 kg/h
Dimensions (L × W × H)	500 × 140 × 380 mm
Weight	6.4 kg
Conformity marking	CE
Protection class II	□

DELIVERY CONTENTS

Instruction manual, transport case, T-handle Allen Key, carbon brush for drive motor, K8/10 welding shoe kit, heating element, brass brush.

DELIVERY CONTENTS CN SET

Instruction manual, transport case, T-handle Allen Key, carbon brush for drive motor, brass brush.

ARTICLE NUMBERS

booster EX2, 230 V/3000 W, EU plug, kit	146.738
booster EX2, 230 V/3000 W, EU plug, CN set	145.934

APPLICATIONS

Tanks

Pipe constructions

Landfill sites

Containers & facilities
