for your ideas.*

TECHNICAL DATA

Voltage	V~	230
Max. power	W	3000
Welding wire	mm	Ø 3 / Ø 4
Material		HD-PE, LD-PE, LLD-PE, PP
Max. material output	kg/h	3.4
Dimensions (L × W × H)	mm	630 × 140 × 380
Weight	kg	6.9
Conformity mark		CE
Protection class		II

DELIVERY CONTENTS

Instruction manual, transport case, T-handle hex socket wrench, carbon brush for the drive motor, UBL30/1.5 welding shoe kit, heating element, brass brush.

DELIVERY CONTENTS CN SET

Instruction manual, transport case, T-handle hex socket wrench, carbon brush for the drive motor, brass brush.

ARTICLE NO.

booster EX3, 230 V/3000 W, EU plug, kit	146.917
booster EX3, 230 V/3000 W, EU plug, CN set	145.936

APPLICATIONS

Plastic tank fabrication

Geomembrane welding

Pipe and fitting production

Custom plastic fabrication
